### **Scheuring Road bridge repairs to begin in Brown County**

*Vehicle damage forces girder replacement*

(Green Bay) The Wisconsin Department of Transportation (WisDOT) Northeast Region office in Green Bay is announcing work to repair damage done by a vehicle to the Scheuring Road bridge over US 41 in DePere will begin Monday, July 8, 2013. The repair is expected to be complete by mid-October.

On September 4, 2012, a truck that exceeded the clearance limits hit the underside of the bridge, damaging four girders that support the bridge surface. Time and continued exposure to the elements could weaken these girders. WisDOT is replacing three of the girders and applying a protective surface coat to the fourth.

**Traffic impacts are as follows:**

- Night closures of US 41 northbound and Scheuring Road. Traffic will be diverted up and down the ramps of the Scheuring Road interchange.
- Eastbound Scheuring Road reduced to one lane for duration of project.
- Westbound lane of Scheuring Road closed for five consecutive days towards the end of the project.
- Lane closures on US 41 and Scheuring Road.

Lane closures and traffic impacts for this project will be announced on the Weekly US 41 Project Lane Closure report every Friday.

**All lane restrictions are weather dependent and subject to change.**
